The 20th August 1951 }

S. P. JAIN,

for Registrar General, India,

NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3·57% and 4·16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs 100/- upto a maximum of Rs 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

REMARKS

The figures of births and deaths shown in this statement for week ending the 28th July 1951, relate to 192 towns with an estimated population of 25,193 thousands. The total number of towns is 235 and their population is 29,286 thousands. Thus 82% of the total number of towns representing 86% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 16,936 and 8,812 representing birth and death rates of 35·0 and 18·2 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 171 towns with an estimated population of 21,927 thousands. Information about Assam and Bihar could not be included. The total number of towns is 203 and their population is 25,092 thousands. Thus 84% of the total number of towns representing 87% of the total population is covered. The numbers of births and deaths recorded in these towns were 15,474 and 8,001 representing birth and death rates of 36·7 and 19·0 per thousand of

population respectively. The table at the end gives the position by States.

The towns of Pandharpur in Bombay and Anakapalli in Madras recorded high death rate of 54·8 and 53·0 per thousand of population respectively. In Pandharpur, the high death rate was mainly due to deaths from fevers and respiratory diseases and in Anakapalli it was due to smallpox and fevers.

(B) States (Part B).—The data here relate to 21 towns with an estimated population of 3,286 thousands. The total number of towns is 32 and their population is 4,204 thousands. Thus 66% of the total number of towns representing 78% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,132 and 811 representing birth and death rates of 23·6 and 12·9 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
